February point score wrap up!

Well our February point score seemed a long time ago since our Christmas fancy dress fun day last December. Held at the northern end of East Corrimal in clean conditions but a very poor bank, especially on the low to mid tide, typical east Corrimal set up unless you surf the reef at the far end, its usually poor banks at best.

Be that as it was, we made the best of the conditions and the decision to carry the tent up was a great one with it turning out such a scorcher of a day, most people would have been looking for shade for the remainder of the day I would think!

Thank you to all the guys who carried gear up and back, multiple trips for some especially with 2 boards to get up there as well, the usual guys were doing the signs and heat progressions - Andrew and Mal Robbo,

plenty of guys helping with the tallying I noticed, Mark Harris, Andrew Farago, Baz, Locky, Mal, Jarret thank you to all you guys for sharing the load.

On completion of the point score arriving back at the gear trailer, it was great to find Andrew and Mark had already cooked the steak and snags for us, really hot work cooking in the open like that guys, thank you very much!

Have a look at the web site when you get a chance and you can see the great work and improvements Dave has done with our web site page, great stuff Dave, its made the site even more easy to follow and user friendly, thanks mate.

Gary Hobin could not make it along this month or Andy, both with injuries, hope to see you all at the March Club Champs, Dale is running them this year, so let Dave know in advance who is intending to compete so Dale can get as much pre organised as possible.

Thank you to all the guys who helped either set up at the Stomp or helped in some way during the day, I appreciate all your time and efforts very much, it really makes a huge difference in the day turning out so well, and something to be proud to host.

See you all in the water,

Billy.

MARCH POINT SCORE WRAP UP!

Hi Guys,
Our March point score, which was initially the Club Champs set down for last weekend, but postponed until April due to poor surf conditions, so we swapped around as you guys are aware, hopefully it turns out to be a favourable decision, only time will tell!

Fortunately this point score was held in nice contestable smooth conditions a little fickle on high tide with some waves a little a full at times. Considering the big and rough conditions the day before we had excellent conditions.

As often the case when you postpone a point score the numbers are usually down, as it was this month, but for those who attended everyone enjoyed the 4 man heats all day!

Thank you to Andrew for bringing the gear trailer along also the guys setting up and pulling the gear down at day's end. The guys tallying were Baz, Locky, Andrew Farago, Mal, Greg, Mark Harris, Ethan with Andrew Wilson and Mal doing the heat draw and sign on start of the day. Thank you to all you guys - your efforts along with everyone who does any role during the day is greatly appreciated, Locky organised the food for us and is really improving big time on his new log, great to see mate! Mark seemed to have the barby well under control.

Great to see Brian Bull come down for the day and doing some judging, after 4 months since his shoulder surgery, I know Brian is patiently waiting to get back in the water, very frustrating process after any major operation.

Look forward to seeing you in the water and remember Club champs in April so no old Mal that day,

All the best for now,

Bill.

ED'S COMMENT:

I'll finish this up so I can get it out to you all, before our Club Championships tomorrow! There will be lots more to show and tell about that next issue!

I haven't captioned these pics just to save some time - I reckon we all know who is who anyway for this issue!

Hope you give the video links a click, on the first page - two of mine from the STOMP and our March Pointscore, and another cracker from Jarret - AKA jn films, editing and arrangement puts mine in the shade, so congrats Jarret - keep up the good work!

Dave is bowing out of the Webmaster role, I hear, so please pass on your thanks to him for his consistent work keeping our site up and running, and a real asset to the club. I hear there will be a call for a volunteer to take it over, so don't sit on your hands, get involved and contribute to your club for a time at least. If we all did a bit for a while, we would all benefit, so join in! Its a great feeling to give a hand to your mates!

An additional acknowledgement needed for the STOMP Newsletter too, I thanked a group of people that made it possible, but didn't mention Hendo, who spent all day in the judges tent as usual, and guided the hands of our judging panel, whenever necessary (pretty often I observed) So thank you Hendo!

There was also a club 'quickenin'' at the local pub, a dozen or so of us standing around in the salubrious local locale, sharing tall tales and true from the legendary past, Corey just back from his long service trip to Bells, back a week or so earlier than expected due to mysterious calendar complexities, good cheer, good vibes,

Hoo Roo for now!
Enjoy!
